

Our Vision and Values

At King Offa Primary Academy we have four key values. These are:

- **KNOWLEDGE**
- **SAFETY**
- **HEALTHY**
- **EQUALITY**

We believe that these four values underpin everything that we do, and belong to every single pupil, member of staff and the wider community. We explore these values through learning each day and through the interactions that we have with each other.

Knowledge

What does this value mean to me?

At King Offa Primary Academy, we learn about the things that we would not learn outside of school. This encourages us to build on what we know and to increase our understanding of the world. Our global curriculum prepares us well for our futures, by equipping us with a broad **knowledge** base. A sound understanding of how to use language and numbers is the most effective way of being able to access information in the world and communicate effectively. There is a high importance on us acquiring the knowledge and skills that we need in English and mathematics.

Safety

What does this value mean to me?

At King Offa Primary Academy, we learn to keep ourselves and others around us **safe** in school and beyond. We learn how to feel safe and secure and know where to access support if we require it. We learn to understand that risk-taking is part of life and that our curriculum at school provides us with the knowledge and skills to be able to evaluate the potential impact of the choices that we make, therefore allowing us to make responsible and informed decisions.

Healthy

What does this value mean to me?

At King Offa Primary Academy, our physical and mental **health** is fundamental to our success as learners and to our future prosperity and happiness. We are taught the knowledge and understanding that will allow us to make healthy lifestyle choices and develop our resilience and confidence to resist peer-pressure. In addition to this, we learn to understand the importance of the health and sustainability of our planet and the role that we have in this as global citizens.

Equal

What does this value mean to me?

At King Offa Primary Academy, the **diversity** of the human race and the uniqueness of every individual is celebrated and understood. We are taught the importance of tolerance, respect and the individual right to be different, within the rule of law and democracy. We are encouraged to understand different viewpoints and form our own opinions, based on our own beliefs and the knowledge of the world that we acquire.
